Dear Flying Saucer Researcher:

GABRIEL GREEN

The appearance of Flying Saucers in our skies is fast becoming common knowledge, but it is not as well known that hundreds of people have not only seen them, but have actually ridden in these craft and personally met their occupants. These "contactees" discovered that the pilots and other crew members of these interplanetary spaceships were NOT grotesque beings, but were, instead, highly intelligent, friendly, men and women from civilizations evolved far in advance of our own.

To the Earth people they contacted, the Space People told of their advanced sciences and of their relatively Utopian way of life. To our planet, in the throes of social and political upheaval and teetering on the brink of self-annihilation by nuclear warfare, they had come, they said, to show us the way out of our crisis and the solutions to our problems. It is this information and knowledge that the Amalgamated Flying Saucer Clubs of America, a non-profit organization, has endeavored to bring to public attention since its inception in January 1959, and which is published in our magazine "Flying Saucers International."

Since their first well-publicized appearance in modern times in 1947, Flying Saucers have been photographed, tracked on radar, and observed all over the Earth. Thousands of sightings have been made by intelligent, responsible observers who testified to seeing wingless, metallic-appearing or luminescent craft demonstrating an advanced technology far beyond the present scientific capability of any nation on Earth.

INFORMATION SHEET #1

The scientific and technical knowledge to be gained from the Space People is a wealth of beneficial information which could transform this world from its present chaotic state into a Utopian-like society, far beyond today's most optimistic concepts. Some of the many amazing benefits of the knowledge already received from the Space People, or promised by them if we will welcome them in a friendly manner, are: elimination of disease, poverty and smog; solving of the problem of automation and unemployment; a way to finance all public works projects and aid to other countries without taxation; an extended life span; a greater measure of personal freedom, economic security and abundance; and for many living today, personal journeys to other planets beyond the stars.

With the aid of our Space Brothers, the Flying Saucer Movement is rapidly growing into a dynamic world-wide social reform movement, dedicated to the mental, physical, spiritual and economic emancipation of man. This new Space Age ideology to champion the dignity and rights of man, to free him from economic bondage, and to liberate him from the confines of regimentation, limitation and want, will render impotent those antiquated, totalitarian philosophies based upon force and coercion. This will create a true Brotherhood of Man on Earth through the application of the philosophy of love, through service to others.

Because of the critical nature of world conditions, it is vital to the welfare of all humanity that there be dissemination of this information which can help to solve the most pressing problems of our times. We invite you to investigate this fascinating subject. It offers a realistic hope and promise for the future, and an opportunity for you to participate in this great adventure to build the fabulous New World of tomorrow.

Sincerely, *Gabriel Green, president*

FLYING SAUCERS: WHERE ARE THEY FROM? WHY ARE THEY HERE?

1. WHAT ARE FLYING SAUCERS?: They are extraterrestrial spacecraft of a highly sophisticated design. The manned craft duplicate the gravity conditions and the atmospheric environment from which the occupants come. They are built in many sizes and shapes, according to their function. Some are spherical, but most sightings have been of saucer-shaped objects. The "Mother Ships" which house the smaller "Scouts" are tubular, or cigar-shaped. Many small remotely controlled craft (between 3 inches and 10 feet in diameter) are sent out from larger craft as sensor devices — to pick up all types of data, including sound and television pictures. Most of them are a silver, metallic color. At night, the ionization of the atmosphere around the craft will cause it to give off different colors, depending on the intensity of the propulsion power, etc. Many of the objects give off a brilliant white and/or a pulsating red light. Sometimes the force field around a craft will condense the atmosphere around it so that it appears to be a saucer-shaped cloud.

2. WHERE DO THEY COME FROM?: Some come from other planets within our own solar system such as Mars, Venus, Saturn, etc. Some come from different planets in other star systems within our Milky Way galaxy. A few come from other galaxies.

3. WHAT DO SAUCER OCCUPANTS LOOK LIKE?: They are humanoid, and they can and do pass among us unnoticed. Their skin and hair color varies as does ours, and so does their size. Their height varies from about 3 to 10 feet, depending upon their environmental and racial backgrounds. They are often quite good looking and usually retain a youthful appearance, despite life spans that extend over several hundred years.

4. COMING FROM DIFFERENT ENVIRONMENTS, HOW CAN THEY LOOK LIKE US?: If their environments were radically

different from ours, they probably wouldn't look or be human. However, they say that surface conditions on their planets are much closer to our own than we are led to believe by the dogmatic statements of some of our scientists. Temperatures are about the same or milder than ours. Venus, for instance, has no year-around snow even at the poles. Gravity is sometimes less, and sometimes as much as twice that of Earth's. The atmospheric oxygen content of different planets also varies from one half to twice that of ours. Underground bases with artificial gravity and air supply are maintained on our Moon and on other Moons which either are too small or do not rotate sufficiently to hold an atmosphere to them.

5. DO THEY SPEAK OUR LANGUAGE?: They have their own native tongues, as well as a universal language that is spoken by all members of the Universal Alliance of Planets. They very quickly learn any language which is needed for their functioning on Earth. They have monitored our radio and TV programs for years. With their more advanced methods of acquiring knowledge in a short period of time, it is not a laborious task for them (as it is for us) to learn a new language.

6. HOW DO SAUCERS FLY? WHAT IS THEIR PROPULSION POWER?: Since most of their travel is in space where there is no atmosphere, they do not fly aerodynamically as do our airplanes. They use various forms and applications of electromagnetism and gravitational fields. They do not carry heavy fuel with them, as do our planes or rockets, but instead use fuel cells or the "fuel" (power) which is ever-present throughout the Universe, and which keeps all the planets, stars and galaxies in their orbits. They hover above a planet's surface simply by shielding the amount of gravitational pull on their craft.

7. HOW DO SAUCER CREWS SURVIVE RIGHT ANGLE

TURNS AT THOUSANDS OF MILES PER HOUR?: The electromagnetic power which propels the craft also propels every atom within the craft at the same time, thus eliminating any G-forces during sudden changes of direction. Thus their craft can fly tight circles around our fastest planes, without any discomfort to their occupants. Unfortunately, the power which propels our airplanes does not also propel the pilot. (The seat he is sitting in does that.) Thus he is subject to the forces of gravity and momentum when any change of direction is made.

8. HOW DO SAUCERS DISAPPEAR INSTANTANEOUSLY?: By increasing the strength of the craft's electromagnetic field, light is bent around the craft. Radar can sometimes detect a craft which cannot otherwise be seen. However, the saucers are capable of phasing out radar signals so that the presence of the craft cannot be detected. Saucers will also suddenly disappear when teleported to a different area, or when their frequency (vibration) is raised beyond normal visual perception. Clairvoyants with extended visual range can often perceive the latter.

9. SCIENTISTS THEORIZE THAT MATTER WOULD CEASE TO EXIST AT THE SPEED OF LIGHT. IF THIS IS SO, HOW CAN SAUCERS TRAVEL THE VAST DISTANCES BETWEEN THE STARS?: The Space People say that this theory is as invalid as the previously held belief that man could not surpass the speed of sound. Our own history and continuing progress in scientific achievement offers convincing testimony that the main obstacles to man's progress are the roadblocks in his own mind. That which the mind of man can conceive he can, in time, achieve. One group of Space People say that after they had developed interplanetary flight (at sub-light speed), it was 1500 years before they were able to surpass "the light barrier" and to achieve interstellar travel. Through friendly exchange of such knowledge with the worlds of other star systems, all advanced planets now have craft that fly many thousand times the speed of light, and vast distances are no longer the barrier they once were.

10. WHAT IS LIFE LIKE ON OTHER PLANETS? DO THEY HAVE WARS AS WE DO?: War has long been eliminated as a means of settling disputes on advanced planets. Poverty, intolerance, injustice, disease and major crime are things of the past. Minor crimes (such as theft) still exist on some planets, but violators are considered sick and are quickly treated and restored to health and society.

Most manufacturing is completely automatonic. Man's sustenance for life is his birthright. He lets his knowledge of science and machines work for him. There is much leisure time and visiting of other planets. Many spend all of their time living and traveling in space — their ships being almost completely independent of planets.

11. ARE OTHER PLANETS ORGANIZED INTO A FEDERATION?: Where there is transportation and communication, organization eventually follows. There are many different organizations of planets in the Universe, just as there are yet many independent nations in our world. The Universal Alliance of Planets is the largest in this sector of space. If we choose to accept their offers of help, we should advance sufficiently to qualify for the privileges of Alliance membership in about 200 years.

12. HOW CAN HUMAN LIFE EXIST ON OTHER PLANETS IN OUR SOLAR SYSTEM WHEN SCIENTISTS SAY IT IS IMPOSSIBLE?: It is only impossible according to the present limited understanding of some people. The relatively crude and inaccurate instrumentation used to evaluate surface conditions of other planets constantly invalidates itself. Spectrographic analysis of Earth's atmosphere from Earth-built satellites has indicated that no oxygen is present on Earth. Therefore, by the same criteria by which we evaluate the possibility of life on other nearby planets, we must conclude that life on Earth cannot exist either.

A brief look at history indicates that scientists are often very unscientific. Few scientists are qualified as experts on subjects other than their own specialized field of study. True scientists are not dogmatic and do not ridicule or claim to be authorities on subjects about which they know little or nothing.

13. WHY DOES GOVERNMENT POLICY DEBUNK THE EXISTENCE OF FLYING SAUCERS?: Some special interest groups fear the constructive changes that would come about if the truth were known. Many politicians, churches and financial interests maintain their power, influence and control only through calculated en-

forcement of ignorance. They fear loss of power and loss of control over people's minds, their votes and their pocketbooks. They prefer the status quo — business as usual, in preference to the welfare of the people.

The Space People say they have repeatedly contacted all heads of major power governments. Many credible reports indicate that the U.S. has had several extraterrestrial craft in their possession for years. Through a planned program of ridicule, and the suppression of the information and evidence in their possession, governments thwart the public's interest in, and knowledge of, the saucer subject. However, hundreds of private saucer research organizations all over the world are helping to gradually bring the truth to the people.

14. WHAT IS THE PURPOSE OF THE SPACE PEOPLE IN COMING TO EARTH?: Many of our ancestors came originally to Earth from other worlds and established colonies here. The Space People have been watching our progress and helping to guide our evolution ever since. Many religions were founded by their representatives who came here as teachers. Development of atomic bombs in 1945 indicated to the Space People that our technology would soon be able to destroy all life on Earth, and perhaps even to disintegrate the planet itself. The disintegration of our planet would endanger life (or cause the loss of it) on other planets in our solar system. They also say that radiation from nuclear tests is more harmful to our planet and to the present and future generations than some scientists realize, and that it is imperative that all underground and atmospheric bomb tests be stopped.

To help us solve our problems and transcend this critical period in our evolution, the Space People have come to offer us their help, and the benefit of their advanced knowledge and experience in surmounting similar critical periods in their own evolution. Their main purpose is to help us effect social and economic change in order to create a healthier, happier, peaceful, just and more abundant world. Once we have provided for our material needs, we will have more free time to develop our spiritual natures, so as to qualify to join with them in their travel among the stars.

15. WHY DON'T THE SPACE PEOPLE LAND OPENLY TO PROVE THEIR REALITY TO OUR WORLD?: They will — when our people are psychologically prepared to receive them in a friendly manner, neither worshiping them as Gods nor fearing them as conquerors. The more people that send out thoughts of love and friendship to the Space People asking them to land, the sooner they will then be able to come openly to help us. After the Space People have proved their reality, it will then be possible for their ambassadors to speak more effectively about their way of life, and how we might adopt some of their ways to our benefit.

16. DO SPACE PEOPLE BELIEVE IN REEMBODIMENT?: Yes, since spiritually advanced people do not have a veil over their memory, they are aware of their past lives. Being fully aware of the Law of Karma, they live constructive lives accordingly.

17. WHAT IS THE NATURE OF THE ECONOMIC SYSTEM ON OTHER ADVANCED PLANETS?: It is called Universal Economics. It is a non-money system that enables the abundance that their technology is able to produce to be distributed equitably to their people. People are rewarded unequally but justly for different types and amounts of service to society, but all goods and services produced in sufficient quantities for everyone (such as food, clothing, housing, transportation, communication systems, education, health care, insurance, etc.), are free. There is unlimited financing for all worthy projects, but no taxation in any form. This unique but simple system eliminates inflation and depression, and provides total economic security for all.

18. WHAT IS THE UNITED WORLD?: It is a world government (a theocratic democracy) based upon Christ-oriented principles and Universal Law, that the Space People propose be established to fulfill religious prophesies and promises, and to bring about God's Kingdom on Earth, and The Universal Brotherhood of All Mankind.

19. WHAT IS THE SOURCE OF THIS INFORMATION?: It represents a summary of the experiences and information of hundreds of people throughout the world who have, since 1950, had personal or telepathic contact with people from other planets.

20. WHAT CAN I DO TO HELP THE SPACE PEOPLE'S GOAL OF WORLD BETTERMENT FOR OUR PLANET?: Learn as much as you can about this vital subject. Then help to pass on to others what you have learned. When enough people are working cooperatively together to help our world, the Great Plan to save our planet will come about.

MODERN-DAY GABRIEL SPREADING WORD FROM ON HIGH

By ROBB FULCHER. (Corrections and additions by GABRIEL GREEN, 6-5-1984.)

Fri., April 27, 1984. Applegate, Ore. (UPI) Gabriel Green's message appears on a big blue lapel button pinned to his neat polyester suit: "Flying Saucers Are Real."

Green, 59, a former professional photographer from Yucca Valley, Calif., is traveling across California and Oregon speaking on "Flying Saucers and the Coming Kingdom" and spreading the word saucers not only are real — but contain extraterrestrial beings guarding the tenuous future of the planet Earth.

The mild-mannered founder and president of the 5,600-member Amalgamated Flying Saucer Clubs of America, blends information about UFO sightings and soul travel with the prophecies and teachings of Christianity and other religions.

He reports intelligent beings from outer space are concerned with the possibility of nuclear war on Earth, which could destroy the planet and bring ruin to the rest of the solar system.

The aliens' primary mission is to raise the consciousness of earthlings "so we can recognize our own individual Godhood" and adopt creative, rather than destructive, attitudes and behaviors to move into the "Aquarian Age" of peace and harmony, relatively non-destructively, Green said.

But some of the extraterrestrial visitors already believe Earth is doomed and are making evacuation plans, just in case earthlings do not soon change their destructive ways.

If Armageddon comes, so will the aliens, swooping down in spaceships to evacuate about one-tenth of the population in what Christians call "the rapture," thus fulfilling the Biblical prophecy that "two will be in the field and only one will be taken," Green said.

"If the cataclysm comes, only those devoted to selfless service to humanity and the principles of righteousness, non-violence, and a loving concern for the welfare of all of their fellowman, will qualify spiritually to automatically activate the levitation beams that will lift them to safety aboard the spaceships. Within a few years, when the surface is habitable again with the help of the Space People, they will return to live in an environment of peace, security, justice and abundance that will be manifested as 'God's Kingdom on Earth' is at long last established."

If the rapture comes, it would also fulfill the Biblical prophecy about "the elect" (those who qualify themselves spiritually for the physical liftoff by the constructive actions of their lives) "rising to meet with Christ in the air," aboard the spaceships, Green said.

As an alternative to this "Evacuation Plan," within the next few years, the aliens may decide to land on Earth, probably in our nation's capital, in their quest for social and political change here, since they say the U.S.A. is the "New Jerusalem" and has the divine destiny to lead the world onto the pathway to peace and abundance for all.

This would constitute the primary "Salvation Plan," Green said, and it is that plan that he is doing his very best to help bring about.

"The trump card of the Space People, is a public landing to get our attention and to prove the reality of their existence, a la the famous 1950 science-fiction movie classic, 'The Day the Earth Stood Still' starring Michael Rennie and Patricia Neal, and also the prophetic novel by the well-known psychic Harold Sherman, 'The Green Man and His Return.' That would have enough public impact to cause people to finally listen to the Space People's proposals as to what changes are needed in order for civilization to survive."

AFSCA, P.O. BOX 39, YUCCA VALLEY, CA 92284

"The first public landing will in fact be the 'Second Coming of Christ,' as hundreds of spaceships (the Heavenly Host) hover overhead. As The Christ of the Aquarian Age speaks to mankind via international satellite television, or from holographic projections of his image in the sky, utilizing the advanced technology of the spaceships, 'every eye shall see him.' (Rev. 1:7)"

"As a result of the procedures recommended by The Christ, God's Kingdom on Earth (The United World) would be set up, solving most of mankind's problems and fulfilling the constructive prophecies of all religions simultaneously, as the interest and welfare of all people is served."

"However, since earthlings have free will, by Universal Law, the ET's cannot suddenly force their reality upon us by open public landings until officially invited to do so, or until enough people mentally ask them to intercede on our behalf." (Yes, Green says, the ET's have the capability of not only monitoring our every action, but our thoughts as well!)

"Also, they have previously withheld proof of their reality until the Flying Saucer-New Age-United World movement can get enough support to educate the public psychologically, so that when they land we will neither worship them as gods nor fear them as conquerors."

Green said he has learned of the aliens and their plans through telepathic conversations with extraterrestrials, and through talking with other "contactees" on Earth who have been taken aboard spaceships many times. He also says that he has personally made over 100 sightings of spaceships over the last 30 years of his research.

He also describes beings who visited him, including one, Renton, who as a representative of the Space People, asked him to run for President of the United States in 1960, in order to plant the seeds of needed reforms, one year after formation of the Amalgamated Flying Saucer Clubs.

"Renton, from the star system Alpha Centauri, was very authoritative, like you would expect a space commander to be — kind of like Capt. Kirk on 'Star Trek,' but he was only four feet tall," Green said.

Because the aliens' analysis of future events caused them to believe that if Nixon were elected in 1960, his handling of the Cuban Missile Crisis of 1962 would trigger WW III, they asked Green to throw his support to Senator Kennedy, who was elected by a very narrow margin. Shortly after the election, Mr. Nixon was overhead to remark, "If it weren't for that Gabriel Green, I'd be President today."

Green's ET mentors tell him that the next 3 or 4 years could write the last act of "this great cosmic drama of the ages." If the social, political and economic reforms that Green recommends are listened to and applied, then "Doomsday will be canceled, and humanity can be literally saved from destruction by electing to live by Universal Laws, rather than in violation of them."

In a recent message for mankind, one of Green's extraterrestrial mentors gives this profound warning: "Greetings People of Earth: I am Ashtar, of the Ashtar Universal Command of Free Planets.

"To begin with, your planet, the planet Earth, is at a crossroads. Since your people have been given free will — the freedom to express evil as well as good, the choice as to whether your planet and its people will transcend this critical period in its evolution and evolve into the New Age relatively non-destructively, is a choice that your people must make collectively.

"There is still time, people of Earth, to make this choice and to resolve the many problems that you have been facing for eons of time. But you must act. Freedom is a privilege, and it must be earned. It has been an expression of your people that they deserve the leaders they get.

"It is our purpose to help you to see the issues facing your world, that you will select those leaders who can lead you into a more positive direction. We will do our part in helping to inspire and guide and raise the consciousness of your people, so that they can qualify for, and will work to elect, leaders who will have the good of the people at heart."

Commander Ashtar continues: "God's Kingdom is going to be manifested on this Earth very soon, one way or another. It will be the free will choice of your people to decide which way will be chosen. One way will end your civilization as you presently

FROM OUT OF THE STARS came—THE KORENDIANS!

FACT: In July 1961, Bob Renaud, a young electronics technician, first made short-wave radio contact with advanced people in a spaceship from another world! They were the Korendians, from a solar system 400 light years distant! How they traveled this vast distance, how they learned our language, and what their mission to our planet is told in "The Bob Renaud Story," a continuing series (starting in issue #18) in "Flying Saucers International." (BACK ISSUES: \$2 ea., 10 for \$15 (#'s 18-29, less #20 & #23).

The Amalgamated Flying Saucer Clubs of America (AFSCA) is a world-wide nonprofit research organization with members in all 50 states and in 23 foreign countries. It is a complete source of contactee-oriented Flying Saucer information: Books, photos, contactee reports, etc.

know it. The other less destructive way, will help you to evolve through educational processes into the glorious future that will lead you to travel with your brothers and sisters of the stars."

Green said he and other members of the New Age movement are "truth seekers who go beyond the dogma and limitations of past teachings."

"There has been a dramatic change in the past few years," he said. "In the '50s, most people could not deal with these concepts unless they had studied metaphysics (above or beyond physics) for 15 or 20 years. Then in the '50s and '60s there was a blitz of media accounts of UFO sightings and contacts."

"And more recently there have also been things in the entertainment media, such as motion pictures like 'Close Encounters of the Third Kind,' 'Star Wars' and 'ET: The Extraterrestrial' that have stimulated interest." He cites a 1983 Gallup Poll which indicated that 80% of the U.S. population now believe in UFO's and that 20 million Americans claim to have seen them.

Green says that he is a vocal telepathic channel for the Space People and "The Great White Brotherhood" (the Spiritual Hierarchy of Earth), and as one of their many messengers and ambassadors, Green claims that he has been given the "Keys to the Kingdom" by which God's Kingdom on Earth can soon come into being.

Green says that these two keys without which the Kingdom cannot be manifested are: "Universal Economics," and "The United World."

"Universal Economics is the system the Space People claim is used on most advanced planets which is the foundation of their utopian-like societies. If applied here, it would provide each person with a lifetime-long 'Economic Birthright' of free food, clothing, housing, education, transportation, communication, insurance, medical and dental care, and their fair share of the abundance that modern science and automaton industry can produce."

Green says that "UnEc" utilizes neither money nor barter, and that it uniquely answers the age-old question of "How are we going to finance it?" He says the UnEc system would provide unlimited financing for all worthy projects promoting the public good, such as mass rapid-transit systems, anti-flooding construction to contain our rivers, crash programs to develop alternate non-polluting energy sources to restore clean air to our cities, and programs to clean up the pollution of our planet. And he says the UnEc system will do it all without taxation.

In addition, Green says that conflicts between labor and management would be automatically resolved, along with the problems of workers being replaced by automation and foreign competition. Urban renewal, foreign aid and paying off the huge national debt would also be financed without taxation.

"The United World" is Green's proposal for a world government (a theocratic democracy) which he says is based upon Universal Law and spiritual principles. He says it employs a unique concept of democratic representation, which he originated in the '70s, called "Multi-Aspected Proportional Representation (MAPR)," in which all nations and individuals would have a fair and equitable voice in government, and in resolving international disputes non-violently.

These two "keys" form the basis for a new political, religious and economic ideology that Green calls "Universalism," and which he claims would eliminate the inadequacies of both Capitalism and Communism, by combining in a single superior system the constructive aspects of both, without the disadvantages of either. He calls it "Universalism" because he believes it will have universal appeal, and in effect, be all things to all people — fulfilling the basic constructive goals and ideals of all belief and philosophical systems, and that it therefore has the potential of uniting all humanity, as the "Promised Land" is manifested for everyone in God's Kingdom on Earth.

Green claims that many of his friends, associates and fellow "Light Workers" of the Flying Saucer-New Age-United World movement have been associated for life-time after lifetime in their persistent and dedicated efforts to better conditions and to emancipate mankind on this planet. He says that some of them have been the revered founders and prophets of various religions, and also among the "Founding Fathers" and former presidents and leaders of this nation and of other nations, reincarnating over and over again to raise the quality of life and to bring "a greater measure of freedom to all mankind."

Green claims his associates also include some of the former apostles and disciples of Jesus of Nazareth (The Christ of the Picean Age), and those who were witnesses of the Crucifixion, the Resurrection and the Ascension of Jesus, The Christ.

"These same souls, who gave up their former status as leaders and citizens of other advanced planets and dimensions to come to Earth, volunteered as missionaries in 'God's Great Plan' to ultimately return all the 'Fallen Angels' and 'Laggard Souls' to God's bosom and right-use-ness of their formerly misused powers."

Green says that the Earth has been serving in past ages as a "school of hard knocks" for souls from throughout the Cosmos, who could only learn their lessons the hard way. But, at the same time, Earth is serving as a testing and training ground for future immortal beings, he said. "However, now as we come into the 'Last Days' of the Picean Age and into the higher harmonious vibrations of the 'Age of Aquarius,' the planet Earth will be graduating from service as a grade school to that of a high school, as our people become more mature and spiritually evolved."

He also says that the "Masters of Wisdom" from the Spiritual Hierarchy are now externalizing (reappearing on Earth in the flesh) to assume their rightful positions promised in our Holy works, of being made "Kings and Priests," (Rev. 5:10), or in other words presidents, vice-presidents, and other leaders of the Christ-oriented world government.

Green regards the modern-day advent of extraterrestrial visitations to Earth as "the most important event in our history — one that offers unlimited benefit to all mankind from application of the advanced knowledge of the Space People, if we will but accept their friendly offers of help to our world."

Green earns the money he needs to travel and lecture by guiding people through "Past Life Regression" sessions. By a unique technique given by the ET's, subjects instantly go into an altered state of awareness (without hypnosis) to get in touch with the happenings of past lives, in order to expand their awareness and to function more effectively in the present.

By means of "Higher Self Attunement," which is part of Green's regression technique, Green says that subjects can often experience telepathic contact with their Higher Selves, the Space People, Ascended Masters, their spiritual guides and guardians, deceased loved ones, or historical personalities of the past, such as King Arthur and his "Knights of the Round Table" at Camelot.

Green also claims that "Distant Viewing," in present time, by means of soul travel (projection of one's consciousness) to other physical locations such as the "Inner Earth" and the underground bases on the Moon, is sometimes a remarkable by-product of this process, in addition to visiting the prehistoric civilizations of Atlantis and Lemuria, and the evacuation spaceships that are presently standing by in case there is need for "the rapture."

"Because time is so short," and because he can't carry the whole load all by himself, Green is now asking others who are able, to help him carry the financial burden of "spreading the word," by donating \$25 or more per year to his cause. The \$25 amount is suggested because 25 symbolizes the number of the world government he is proposing which consists of the 24 Elders (Rev. 4:4, 5:14) and The Christ (Rev. 4:10).

Green is also looking for volunteer staff members to help him lay a foundation over the next four years for New Age candidates to run on a United World platform in the 1988 elections "to insure a better tomorrow instead of no tomorrow." Since Green's "Universalism" ideology transcends political party boundary lines because it serves the welfare of all the people all of the time, rather than the special interests of only a few, Green will be urging candidates from both major political parties to run for all levels of office on his New Age-oriented "United World" platform.

"Only in this way, by using 'ballots instead of bullets' can humanity be given a meaningful choice as to the kind of a future we want. Together we can create a world that works better for everyone," Green said.

And so it is that Gabriel Green travels about "blowing his horn" to announce the "good news" (gospel) of the coming "Kingdom of Heaven on Earth," and sounding the "Call to Arms" of all the "Light Forces" (men and women of goodwill everywhere) to help him to spread the word to mankind of things that can be, and of the more positive choices that are now available to us, if we will but choose them.

ASHTAR SPEAKS TO MEN OF EARTH (Channeled by Gabriel Green, Jan. 29, 1984)

"Greetings People of Earth: I am Ashtar, of the Ashtar Universal Command of Free Planets. I come to you today to give you a brief summary of the total amount of information and guidance that we have given through this channel, Gabriel Green, over the last 13 years.

To begin with, your planet, the planet Earth, is at a crossroads. Since your people have been given free will --- the freedom to express evil as well as good, the choice as to whether your planet and its peoples will transcend this critical period in its evolution and evolve into the New Age relatively non-destructively, is a choice that your people must make collectively.

There is still time, people of Earth, to make this choice and to resolve the many problems that you have been facing for eons of time. But you must act. Freedom is a privilege, and it must be earned. It has been an expression of your people that your people deserve the leaders that they get.

It has been our purpose to help you as a people, to so see the issues facing your world, that you will select those leaders who can lead you into a more positive direction. We will do our part in helping to inspire and guide and raise the consciousness of your people, so that they can qualify for, and will work to elect, leaders who will have the good of the people at heart.

You (the Light Workers), over the last 3 1/2 decades, have built an area of understanding and consciousness in millions of people that was not formerly there. So that now there is tremendous potential in the quantity of your people who now have the higher awareness oriented to the needs of all the people of your world, rather than to the special interest factions who are served by your present world leadership.

This is the Time of the End. At the present time you are going through the Last Days of the old Picean Age. It remains to be seen whether these days become the end of the world for the majority of your people, or the beginning of a glorious New Age that can be manifested within the next few years. If you will follow the guidance that has been given to Gabriel, and to other leaders of your Flying Saucer - New Age Movement, we will be able to help you to transcend this critical period in your evolution, and to enter the New Age in a less destructive fashion.

There are two main points that you should be aware of:

1. God's Kingdom is going to be manifested on this Earth very soon, one way or another. It will be the free will choice of your people to decide which way will be chosen. One, will end your present civilization as you presently know it. The other, less destructive way, will help you to evolve through educational processes into the glorious future that will lead you to travel with your brothers and sisters of the stars.

It is now possible for each one of you to contribute to manifesting this Kingdom, if you will put your shoulder to the wheel, and will help to bring God's government into manifestation as it has been given to our ambassador and messenger, Gabriel Green.

The Keys to the Kingdom have been given to Gabriel for the purpose of sharing with you details of the way you can participate in helping this Kingdom to now manifest on your planet. The Universal Economic system and the United World (Christ-oriented world government) are "The Keys to the Kingdom."

2. The second important factor, soon to manifest, is the Second Coming of your Christ to the planet Earth. This happening will take place when enough of your people have been raised in consciousness to prepare them for this glorious event. When the gospel (good news) of God's Kingdom on Earth has been preached throughout the world, then the end shall come, or the Second Coming of The Christ of the Aquarian Age shall take place.

This shall be a wondrous event, shared in by the Angelic Host (millions of your Space Brothers and Sisters from throughout the Cosmos) in their magnificent ships which will be seen in your skies.

The Christ of the Aquarian Age will arrive in the first public spaceship landing, to be seen by all of your people on international satellite television, and by other advanced scientific processes where such television is not available.

This shall bring about a wonderous age of change in the lives of all of your people, which has been long awaited and prophesied in your various holy works. There is yet time, people of Earth, for you to bring about the more idealistic and positive transformation of your planet. But you must work together. This is imperative now. You must share in your effort to bring about a non-destructive transformation of all things on your planet, social, economic and political.

Within the next few years you will be making your choices. So do not hesitate to serve the cause of the Father and His Will for your people. I, Ashtar, of the Free Federation of Planets, Commander of the Universal Confederation of Planets Space Corps, have spoken to you, and give you my love."
